 G Kawasaki Plant Systems, Ltd.

#### Rolling Stock A Shinkansen Train Prototype FASTECH360S

This year marks the centennial of our involvement in the manufacture of railroad cars. We have manufactured a number of famous train cars that have entered the annals of Japanese railroad history and received high praise overseas as well.

#### Ships CE LNG carrier

In the field of shipbuilding—the very roots of our company—we've made the most of our wealth of experience and the latest technologies which have contributed to the field of marine transport as well as the development of the social economy.

#### Aircraft BC B777-300ER

Kawasaki participates in a number of governmental projects involving passenger aircraft, helicopters and space development and has earned hearty trust with our high level of technology.

#### Motorcycles, Jet Ski D \* ZZR1400

We also work to spice up the lives of general consumers with our motorcycles, Jet Ski<sup>®</sup> watercraft, and ATVs (all-terrain vehicles).

#### Energy/Environmental Preservation Facilities CG Gas Turbine

Through the development of high efficiency energy equipment, new energy equipment, and various types of environmental preservation equipment, we endeavor to bring about a stable society.

#### Industrial Plants and Equipment CDFG Fertilizer Plant

Along with engineering every stage in the development of a variety of plants from the planning stages through the design, construction, and first test run, we also involve ourselves in the development and manufacture of key component machinery.

#### Steel Structures A Vehicle Assembly Facility

Making the most of our know-how and technology cultivated over our long history, we provide our services in equipping structures that form the foundations of society, such as rocket assembly facilities, airport equipment, and multi-purpose domes.

#### Civil Engineering and Construction Machinery A Wheel Loader AUTHENT135ZV

Grounded in safety, the environment, and efficiency, we develop and manufacture a variety of machines spanning various areas of construction such as excavation, conveyance, and ground leveling.
